

IT'S MORE THAN A GIFT, IT'S A PARKER

EST. 1888

"A signature always reveals a man's character and sometimes even his name": Evan Esar.

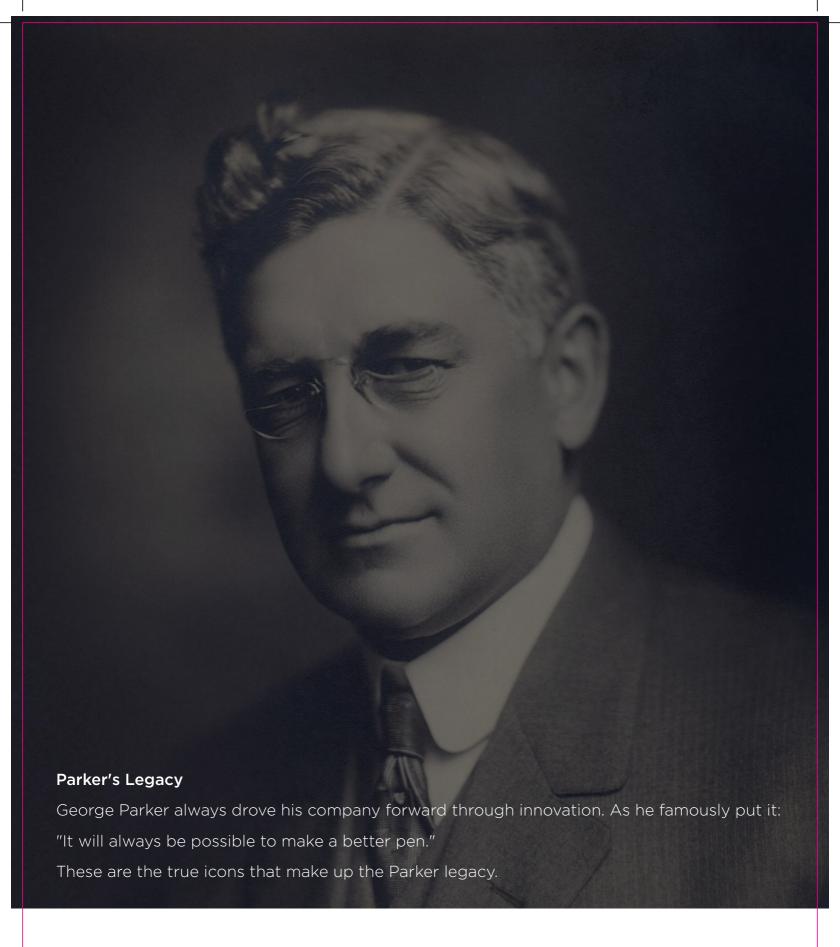

A signature is the unique identity created over years that exude our personality. It is our mark of promise, which often reveals how we want the world to perceive us.

For the young and aspiring, signature holds solemnity and novelty.

For over a century, Parker Pens have been recognized for their dependable quality, precision writing, and prestigious style. A stroke of genius, Parker Pens was introduced in India in 1996 by Luxor and since then it is the first choice for young and aspiring when it comes to marking a milestone with a signature.

### **The Parker Pen Story**

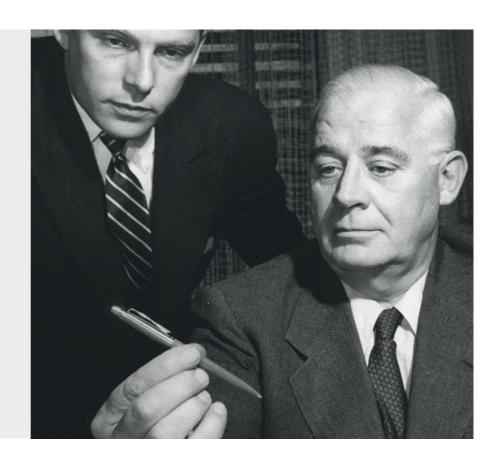

Over 100 years of creation, innovation and expertise go into the Parker pen, one man's vision turned to a brilliant reality. Learn how Parker's legacy transformed the art of pen making, from his first patent to earning an Academy Award. Uncover the history of the Parker pens, where innovation was used to produce wartime pens and sign peacetime accords. Earning two Royal Warrants and worldwide acclaim.

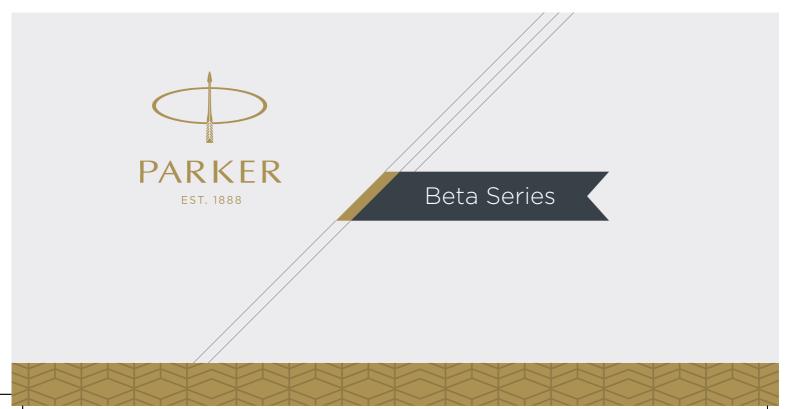

### **Parker Arrow Clip**

First featured as a clip on the Vacumatic pen in 1933, the arrow symbolises Parker's pioneering attitude. In 1957, it became the brand's emblem and evolved in 2015 to match the brand's modern standards of sophistication and luxury.

As the ballpoint pen began to emerge in the mid-forties, Parker, driven by the desire to only produce reliable pens, patiently conducted extensive research until perfecting the refill. And in 1954, Parker launched Jotter to complete their portfolio.
